Dear Sir:

Applicant has reviewed the claimed subject matter in the above identified pending patent application and has recognized that several commonly assigned issued patents should be brought to the Examiner's attention. Consequently, three issued patents, assigned to Large Scale Biology Corporation are listed in the accompanying PTO Form 1449.

During a telephone conversation with Examiner Foley on July 30, 2003, the Examiner asked that Applicant fax this paper and the PTO Form 1449, but not to fax the three patents, since electronic texts of the cited patents are readily available to the Examiner.

Respectfully submitted,

  
John C. Robbins
